DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

ART REJECTION:

Claim Rejections - 35 USC § 103

2. Claims 1-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shojima et al(Shojima).

-- Claims 1-18 recite subject matter that is met by Shojima for the reasons of record as discussed in the previous office action. As well, although Shojima does recite that the GPS is incapable of use inside buildings and installations, Shojima does not limit use of the guidance apparatus(2) to only inside use. Therefore, it would have been obvious that the position of the marker would have still been attainable via GPS, in situations such as when the guidance apparatus(2) would have been at the same position as a marker located outside, such as at the entrance of a building. Furthermore, claim 10 recites subject matter that has already been addressed with reference to the inherent communication circuitry of the information navigation part(203, column 4, lines 7-15).

REMARKS:

Response to Arguments

3. Applicant's arguments with respect to claims 1-18 have been considered but are moot in view of the new ground(s) of rejection.

It appears as though applicant's amendments intended to further define that the

Art Unit: 2632

GPS system for indicating the position of the marker is included in the marker and therefore the locating device receives the position of the marker from the GPS of the marker. But applicant's latest amendment did not thoroughly define the relationship between the GPS system and the marker, and therefore allowed the reference to Shojima to read on the claimed subject matter as discussed in the art rejection above. In view of this, applicant's arguments are not deemed persuasive.

Furthermore, the examiner is notifying the applicant that since the applicant did not traverse the examiner's assertion of official notice with regards to claim 18, the well-known in the art statement with regards to claim 18 is taken as applicant's admitted prior art.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2632

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
